CENFOTEC
2010

ABOUT ME

I've been working as a software developer for more than 12 years on Frontend and Backend projects.

I've worked as an analyst and programmer, using different technologies and platforms, having worked mainly on Backend projects in recent years.

EXPERIENCE

Senior Software Developer

Data Collection Trades (2018 – present)

- Analyze user requirements, design the domain model, and code the application or backend module.
- Integrate external to systems to company systems.
- Deploy the different software components developed.

Senior Software Developer

UST-Global (2016 – 2018)

- Analyze user requirements, design the domain model, and code the application.
- Develop frontend and backend of web applications related to the financial and retail areas and code their corresponding unit tests.
- Configure and deploy .Net web applications to Azure and application servers such as IIS.
- Define and estimate the tasks for the team (as technical lead).
- Follow Scrum methodology.

Developer Analyst

Exceltec Business Solution (2014 – 2016)

- Develop web application for room reservation working with Exchange Web Services and iCalendar format.
- Develop web application for configuration of automatic maintenance of databases that allows build T-SQL through the UI.
